Powered by Safety-N-Motion LLC

2020 Summer Camp Dates:

- ✓ June 1-5
- ✓ June 15-19
- ✓ July 20-24
- ✓ July 27-31

What is Commuter Camp?

Safety-N-Motion LLC's mission is to facilitate the safety of individuals in the transportation environment through the use of training-based solutions. The primary means to achieve this goal is to conduct summer camps and community-based programs designed to teach independent thinking and self-awareness when using different modes of transportation. This instruction helps individuals become confident while navigating city commuting which translates to awareness on the road and becoming better drivers. By the time students are ready to start driving, they've gained the awareness and personal safety measures it takes to understand basic driving concepts.

Commuter Camp is a unique concept my wife and I developed in response to our child's need to branch out and travel outside the confines of our community independent of our minivan. Yes, there were school field trips and scouting, sports and other supervised functions to attend in a group setting outside our community, but never without a teacher, coach or chaperone to watch over them. We wanted him to be able to function outside of our supervision and be able to make safe, informed decisions without our immediate input. As the need presented itself for our son, we decided to share this program with other students in our community. With the recent influx of city dwellers, the idea grew and took root as Commuter Camp. **We have been operational for 4 years.**

LET'S HAVE AN ADVENTURE!

CAMP COST:

- \$350 per student. Please register online @ www.commutercamp.com
- Payable via PayPal to mhuff310@gmail.com
